EXECUTIVE SUMMARY

Computer Science (CSBS) student with strong expertise in frontend engineering, specializing in high-quality, responsive user interfaces using React.js, JavaScript (ES6+), and modern CSS frameworks like Tailwind CSS. Proven ability to design and ship polished, app-like web experiences with a strong focus on UI/UX, mobile browser performance, and responsive design. Seeking a Frontend SWE Intern role where I can contribute to real product features for a large user base.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, GraphQL

Databases: MySQL, Firebase

Shopify Ecosystem: Shopify Admin API, Liquid, Theme Customization

Tools: Git, GitHub, Postman, VS Code

Concepts: DSA, OOP, DBMS, OS, Computer Networks

EDUCATION

Panimalar Engineering College

Chennai, Tamil Nadu

B.Tech in Computer Science and Business Systems

Expected Graduation, Mar 2027

CGPA: 7.6/10 (First 5 semesters)

Related Coursework: Data Structures & Algorithms, Object-Oriented Programming, Statistics & Applications, Operations Research, Database Management Systems, Operating Systems, Software Engineering

EXPERIENCE

Zapyo Fashions Bangalore, Karnataka

Full Stack Developer Intern

May 2025 – July 2025

- Developed and customized a Shopify storefront with focus on UI/UX and responsive design
- Implemented dynamic product pages and optimized layouts for better mobile browsing experience
- Enhanced user journey through structured product display and intuitive interface design
- Worked with Liquid templating to build reusable UI components

Test Yantra Bangalore, Karnataka

Web Application Intern

Mar 2025 – Apr 2025

- Built and deployed a responsive React.js application (Vibely) with Firebase authentication and real-time database integration
- Designed mobile-first UI components ensuring seamless experience across devices
- Improved UI responsiveness and user interaction using modern CSS and component-based architecture
- Collaborated using Git and Agile practices to deliver production-ready features

PROJECTS

Portfolio

[Demo](#)

- Built a responsive portfolio using React, Tailwind CSS, and Framer Motion with a focus on smooth, mobile-first UI
- Integrated GitHub GraphQL API via a Node.js proxy to fetch and display real-time contribution data
- Designed dynamic UI with dark/light modes, scroll-based interactions, and modern styling
- Optimized performance and layout to ensure fast load times and minimal layout shift

LoanSense — AI Automated Calling System

- Built an automated outbound calling platform for reminders and routine query handling
- Integrated Text-to-Speech to deliver voice messages and capture user responses
- Automated follow-ups, reducing manual calling effort by ~35% during testing

College Bus Tracking System

[Demo](#)

- Built a real-time GPS tracking system showing live bus location and route on map interface
- Implemented ETA prediction and stop notifications for students
- Used by 50+ students in testing and reduced average waiting uncertainty by 30%

CERTIFICATIONS

- Foundations of User Experience (UX) Design — Google (Coursera)
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate — Oracle
